Professional Summary

Aspiring Software Engineer with strong foundation in Java, Spring Boot, REST APIs, MySQL, HTML, CSS and JavaScript. Experienced in developing scalable web applications and backend systems through academic and internship projects. Passionate about building user-centric applications and solving real-world problems through software development.

Technical Skills

Languages: Java, Python, C
Frontend: HTML, CSS, JavaScript
Backend: Spring Boot, REST APIs, CRUD Operations
Database: MySQL, MongoDB, SQL Queries
Tools: Git, GitHub, Postman, VS Code
Other: API Integration, Debugging, Data Structures, OOP

Core Competencies

Backend Development
Java Programming
REST API Development
Database Management
Web Application Development
Problem Solving

Relevant Coursework

Data Structures
Database Management Systems
Operating Systems
Computer Networks
Software Engineering
Object Oriented Programming

Certifications

Infosys – Java Programming
Cognitive.ai – Python Programming
MongoDB – CRUD Operations

Languages

Tamil (Native)
English (Professional)
Hindi (Basic)

Achievements

- Participated in Smart India Hackathon (SIH).
- Founded Three Hearts Handmades and generated Rs.1,000+ revenue within 20 days through Instagram marketing, branding, and digital product promotion.

Education

B.Tech – Information Technology 2023 – 2027
Francis Xavier Engineering College
CGPA: 8.26

Projects

AI Powered Pneumonia Detection

- Developed a CNN-based Deep Learning model using TensorFlow and Python for automated pneumonia detection on 5,000+ chest X-ray images.
- Applied image preprocessing and data augmentation techniques, improving model performance by 15%.
- Achieved 95% validation accuracy through optimized model training and evaluation.

E-Commerce Website(Three Hearts Handmades)

- Developed a responsive business website showcasing 20+ handmade products and gift items.
- Designed and maintained product catalog pages showcasing 20+ handmade products with pricing, and responsive user interfaces.
- Enhanced brand visibility through digital product presentation and responsive design.

Skill Swap Platform

- Enhanced a responsive skill-sharing platform using HTML, CSS and JavaScript.
- Implemented 5+ interactive user modules for profile management and skill exchange.
- Planned a scalable architecture for future backend integration.

Internships

Web Development Intern – E-Dot (May 2024 – Jun 2024)

- Enhanced responsive dashboards improving UI responsiveness by 30%.
- Optimized layouts reducing page load time by 20%.

Data Science Intern – E-Dot (Dec 2025 – Jan 2026)

- Built Machine Learning models using Python for predictive analytics.
- Improved prediction accuracy by 20%.
